Sport, Health and Exercise Sciences

Brunel University London's on-campus pathway provider provides a first year degree in Sport Science for students who may not qualify for direct entry to a degree programme and seek a supportive learning environment.

Study Sport, Health and Exercise Sciences at Brunel University London

Studying sport, health and exercise sciences at Brunel University London gives you a broad range of specialist degrees to choose from, access to some of the best university sports facilities in the UK and prepares you for a fulfilling career in the exciting world of sport and its related industries.

Choosing to study sports science at Brunel University London gives you access to a broad range of programmes. This allows you to pursue your specialist interests, gain hands-on learning and work experience, and grants you access to some of the best teaching and sports facilities in the UK, including our modern physiology and biomechanics laboratories.

You can also broaden your communication, cultural and employability skills, by studying abroad for a year at the prestigious San Francisco State University (please note this is available for selected undergraduate degrees only).

Careers and your future

This pathway is broad-based and will prepare you for a career in a diverse range of fields. You may wish to continue your education further by studying a postgraduate course. You could pursue a career in coaching, consultancy, fitness testing and training, sport development or sport management. Examples of graduate schemes include the Greenwich Leisure Limited Trainee Manager Graduate Scheme or the Police Now National Graduate Leadership Programme.
